Приветики!!! Это настоящий initial commit!!!

Сматри матрицу замутил:

$$\begin{bmatrix} a & b & c \\ d & e & f \end{bmatrix}$$

I had similar problem and whatever I did to fix the issue it didn't work. The reason was that the packages had conflict with "setspace". On the other hand, without using the "setspace"package, the macro didn't work properly (although it didn't complain, but the spacing was not as it was supposed to be).
